

## Product Features

- Compliant to standard SFF-8636 QSFP28 active optical modules
- Compliant to the IEEE802.3bm(100GBASE-SR4)
- Automatic power down while broken cable is detected to improve eye safety
- High speed / high density: support up to 4X25 Gb/s bi-directional operation
- Low power consumption : less than 2.5W
- Reliable VCSEL and PIN photonic devices
- I<sup>2</sup>C standard management interface
- Excellent high speed signal integrity
- Operating temperature Options
  - (Commercial) 0°C to +70°C
- RoHS6 Compliant

## Applications

- 100GBASE Ethernet
- Proprietary high speed, high density data
- High performance computing, server and data storage.

## Descriptions

LX597x is a 100Gb/s hot pluggable active optical cable for Infiniband and Ethernet data transmission . It provides parallel interconnects: 4 transmitting / 4 receiving data lanes and supports distance up to 100 meters.

LX597x is composed of multi-channel optical transceivers in both ends and multimode fiber cable in between. This integrated optical module solution removes the complicated optical fiber interface and brings friendly and intuitive electrical-to-electrical interface to users.

LX597x is designed to meet the requirements of high speed, high density and low power consumption for applications in today's data centers.

**Notes:**

1. The module signal grounds are isolated from the module case.
2. This is an open collector/drain output that on the host board requires a 4.7KΩ to 10KΩ pull-up resistor to VccHost.

## Absolute Maximum Ratings

Stresses in excess of the absolute maximum ratings can cause permanent damage to the device. These are absolute stress ratings only. Functional operation of the device is not implied at these or any other conditions in excess of those given in the operational sections of the data sheet. Exposure to absolute maximum ratings for extended periods can adversely affect device reliability.

**Table 3. Absolute Maximum Ratings**

| Parameter           | Symbol          | Minimum | Maximum | Unit |
|---------------------|-----------------|---------|---------|------|
| Storage Temperature | T <sub>s</sub>  | -40     | 85      | °C   |
| Relative Humidity   | RH              | 5       | 85      | %    |
| Supply Voltage      | V <sub>CC</sub> | 0       | 3.6     | V    |

## Recommended Operating Conditions
